INSTRUCTIONS:

Read the speech at PoliticalClassDismissed.com/speech → Tape this sheet to your refrigerator → DO IT!

- 1 Decide that you've had enough. You want to do something to reverse America's economic collapse. That something is nothing less than restoring the American Republic. America's problems of today were caused by the abandonment of that Republic slowly over a long period of time. Pledge allegiance to the principles of the American Revolution.
- 2 Write a letter to your family, friends and neighbors declaring your support for restoring the American Republic.
- 3 Invite them to a meeting.
- 4 Educate yourself on American history, politics and economics.
- 5 Hold the meeting and explain to them what you have learned and urge them to do the same and then hold their own meeting with their own social circle.
- 6 Display the symbol of the restoration of the Republic, the Betsy Ross flag.
- 7 Patronize businesses that display this flag.
- 8 Boycott businesses that bankroll the political class.
- 9 Educate yourself on the rights of jurors. If you are called for jury duty, understand that the founding fathers designed the system as a check on government power. Remember that when you are in the jury room deliberating.
- 10 Patronize books, blogs, websites, newspapers, magazines, think tanks, and political groups that were right about the economic collapse. Mises.org, IlanaMercer.com and others. See our page for a complete list.
- 11 For political activism, join an existing Patriot group. Don't reinvent the wheel. See our page for recommended groups. While politics is not our best field of battle at the moment, as our movement grows, we will soon be able to launch a successful frontal assault on the political class.
